

Minisymposium

Experimental Evolution & Community Dynamics

University of Helsinki
Viikki campus (biocenter 3 “telkänpönttö”)

August 5th and 6th

starting at 9 am on 5th

Topics of the symposium:

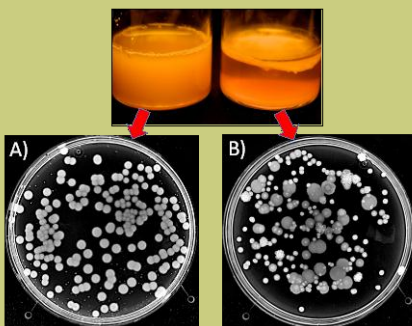

Experimental evolution with microbial model systems

Eco-evolutionary plankton dynamics

Modelling community dynamics

We welcome everyone to join and we also have few slots open for short 15 minute presentations. If you are interested to join and give a presentation that falls to the scope of our symposium, please email to teppo.hiltunen@helsinki.fi

(deadline for presentations by end of June)

Organizers:

Teppo Hiltunen

University of Helsinki

Lutz Becks

Max Planck Institute for Evolutionary Biology, Plön Germany
